User actions

What steps and actions does the user take during each step? Steps: Actions

- Research online florist: Google search "wedding florists near me"
- Check portfolios and reviews: Browse Instagram and websites
- Compare pricing and styles: Read Yelp or Google reviews
- Make initial contact: Call or email for information
- Schedule consultation appointment: Book consultation online/phone
- Meet with Lily in person: Bring inspiration photos to meeting
- Discuss vision, venue, budget: Share venue details and constraints
- Review portfolio examples: Ask questions about process and pricing
- Receive detailed proposal: Review emailed proposal documents
- Review designs and pricing: Compare quotes from other florists
- Discuss with partner/family: Request modifications if needed
- Negotiate any changes: Sign contract and pay deposit
- Track project milestones: Monitor project progress updates
- Provide final guest count: Confirm final details 2 weeks before
- Coordinate delivery logistics: Coordinate with venue on delivery
- Enjoy flowers on wedding day: Wedding day setup and enjoyment

Goals & experiences

What is the user trying to accomplish?

- Find florist who matches aesthetic vision
- Get rough pricing estimates
- Assess professionalism and reliability
- Schedule consultations with top choices
- Communicate vision clearly to designer
- Understand what's possible within budget
- Feel confident about florist's capabilities
- Get clear timeline and next steps
- Make informed decision on vendor
- Secure desired designs within budget
- Feel confident about investment
- Check one major wedding task off list
- Stay informed about progress
- Ensure smooth delivery/setup
- Have stress-free wedding day
- Receive compliments on beautiful flowers

Feelings and thoughts

The emojis below help illustrate how the user might be feeling.

😃 🙂 😐 🙁 😠

- Excited: "I can't wait to see beautiful flower options!" 😃
- Overwhelmed: "There are so many florists to choose from." 🙂
- Uncertain: "I hope I can find someone within budget." 😐
- Inspired: "Lily totally gets my vision!" 😃
- Relieved: "Finally talking to a real expert." 🙂
- Anxious: "I hope the proposal isn't over budget." 🙁
- Analytical: "Let me compare all the details." 🙂
- Confident: "This feels like the right choice." 🙂
- Relieved: "One big wedding decision done!" 🙂
- Nervous: "I hope everything goes perfectly." 😐
- Thrilled: "The flowers look even better than expected!" 😃
- Grateful: "I'm so glad I chose Lily." 🙂

Pain points

What's not working well? What causes friction?

- Hard to see relevant wedding portfolio examples online
- Unclear pricing - have to call for basic estimates
- Limited availability for consultations
- Hard to remember all discussed options after meeting
- No digital way to save/share inspiration ideas
- Uncertain timeline for receiving proposal
- Proposal delivered via multiple email attachments
- Difficult to visualize final designs from descriptions
- Manual contract process slows decision-making
- No visibility into project progress between milestones
- Manual coordination with venue creates confusion
- Last-minute panic about delivery details

Opportunities

How might we address these pain points? What are new ways to serve this person?

- Online wedding portfolio gallery with filtering
- Pricing calculator for basic package estimates
- Online consultation scheduling system
- Digital mood board creation during consultation
- Tablet/app for showing portfolio examples
- Automated proposal timeline communication
- Visual proposal system with design mockups
- Digital contract signing and payment processing
- Comparison tools for different package options
- Client portal showing project milestones and progress
- Automated delivery coordination with venues
- Digital confirmation and communication system
